

S Band Drop-In Circulator

JCD2900T3300VM10

Description:

JCD2900T3300VM10 is a drop-in circulator in the frequency 2.900~3.300 GHz. The device is extremely stable over the temperature range of -30°C to +80°C, with maximum insertion loss of 0.3dB and minimum return loss of 20dB. This circulator can handle a CW Power FWD/REV/PK(Watt) of 100/100/250

Electrical Specification

Part Number	JCD2900T3300VM10
Frequency (GHz)	2.900~3.300
Insertion Loss(dB)MAX	0.3
Isolation(dB)MIN	20.0
Return Loss(dB)MIN	20.0
Operating Temperature	-30°C~80°C
Power FWD/REV/PK(Watt)	100/100/250
Tab(W×LG×THK)(mm[Inch])	.635[.03]×2.5[.098]×.20[.008]
