

JID0445T0455UD20

A high-precision, custom-machined metal component, likely a pressure transducer or sensor. It features a circular face with a scale and a central needle, mounted on a square base with mounting holes. The component is made of a polished metal, possibly stainless steel or aluminum.

Electrical Specification

Part Number	JID0445T0455UD20
Frequency (MHz)	0.445~0.455
Insertion Loss(dB)MAX	0.30 TYP. 0.35 MAX.
Isolation(dB)MIN	20.0
Return Loss(dB)MIN	20.0
Operating Temperature	-40°C~+85°C
Power FWD/REV/PK(Watt)	200/100/600
Tab(W×LG×THK)(mm[Inch])	2[0.079]x6.5[0.256]x0.2[0.008]

UHF Band Drop-In Isolator

JID0445T0455UD20
