

UHF Band Surface Mount Isolator

JIM0600T0800PN1

Description:

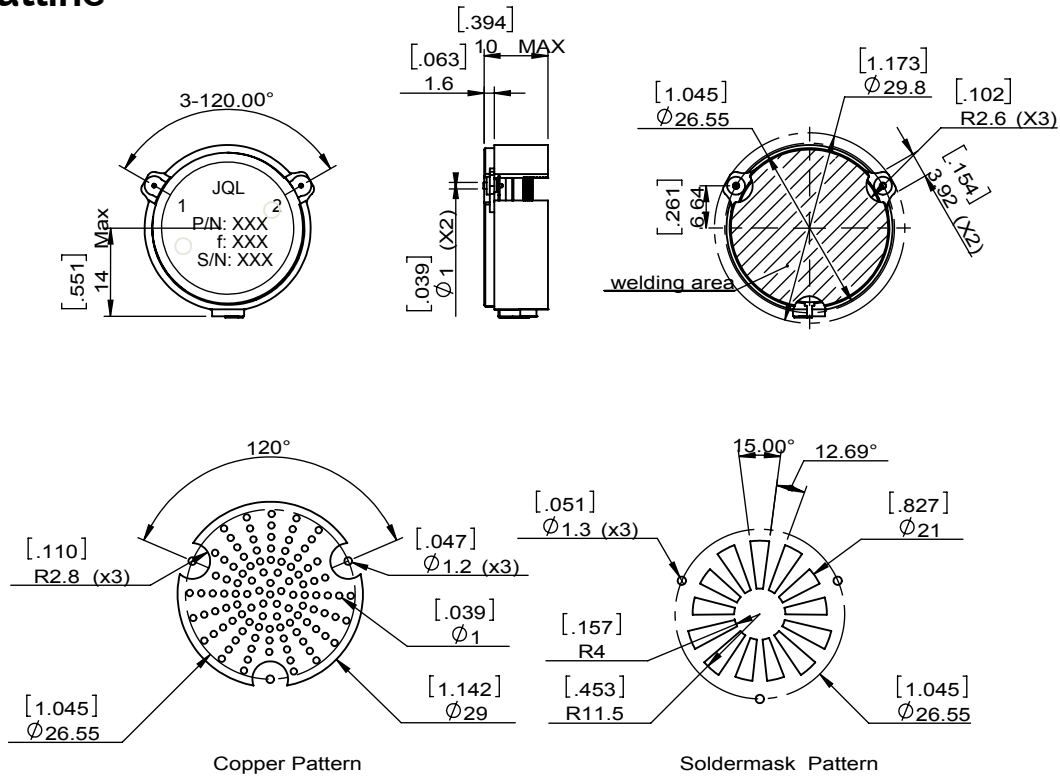

JIM0600T0800PN1 is a surface mount Isolator in the frequency 0.600~0.800 GHz. The device is extremely stable over the temperature range of -40°C to +100°C, with maximum insertion loss of 0.85dB and minimum return loss of 14.0dB. It can handle CW Power FWD/REV/PK(Watt) of 100/10/-

Electrical Specification

Part Number	JIM0600T0800PN1
Frequency (GHz)	0.600~0.800
Insertion Loss(dB)MAX	0.85
Isolation(dB)MIN	14.0
Return Loss(dB)MIN	14.0
Operating Temperature	-40°C~100°C
Power FWD/REV/PK(Watt)	100/10/-
