

L Band Coaxial Circulator

JCC1200T1400KM3NF

Description:

JCC1200T1400KM3NF is a high power coaxial circulator. This device has low insertion loss and high isolation over the 200 MHz bandwidth and over the temperature range.

Electrical Specification

Part Number	JCC1200T1400KM3NF
Frequency (GHz)	1.200~1.400
Insertion Loss(dB)MAX	0.35
Isolation(dB)MIN	20.0
Return Loss(dB)MIN	20.0
Operating Temperature	-40°C~80°C
Power FWD/REV/PK(Watt)	300/-/3000

Outline

L Band Coaxial Circulator

JCC1200T1400KM3NF

Test Data

Features

- Very high power handling capability,
- 3000 W peak.
- Very low insertion loss
- RoHS & REACH Compliant

Applications

- Military radar applications
- Power amplifiers
