

Coaxial Isolator, 6-12 GHz

JIC6000T12K0S1D

Description:

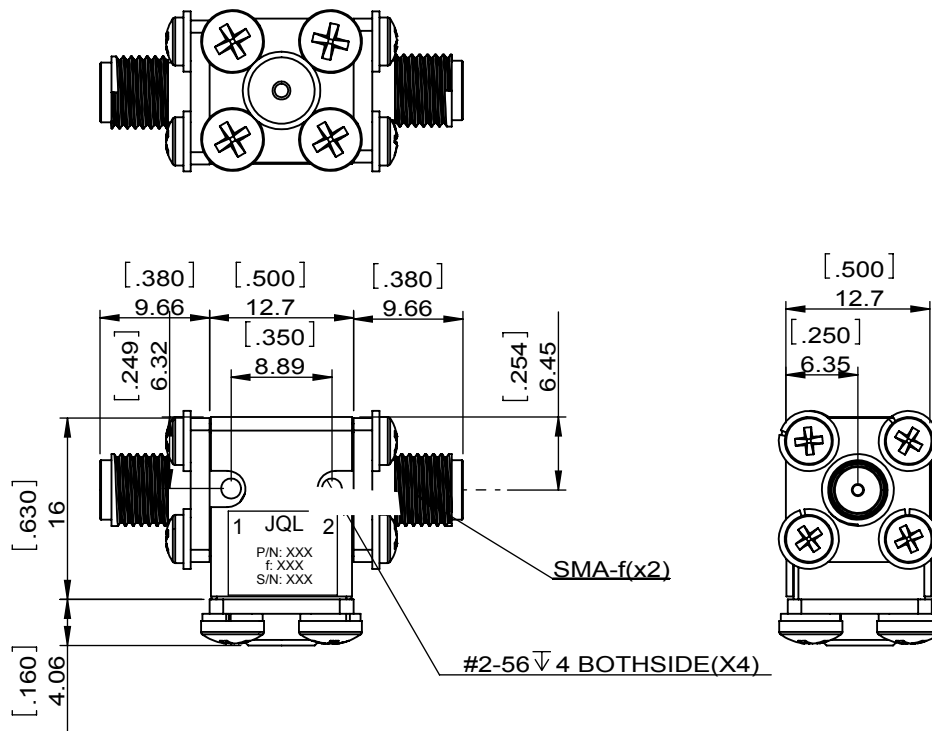

JIC6000T12K0S1D is a broadband coaxial isolator with excellent isolation and insertion loss over -40 to +85 deg C.

Electrical Specification

Part Number	JIC6000T12K0S1D
Frequency (GHz)	6.000~12.000
Insertion Loss(dB)MAX	0.6
Isolation(dB)MIN	16.0
Return Loss(dB)MIN	16.0
Operating Temperature	-40°C~85°C
Power FWD/REV/PK(Watt)	10/10/30

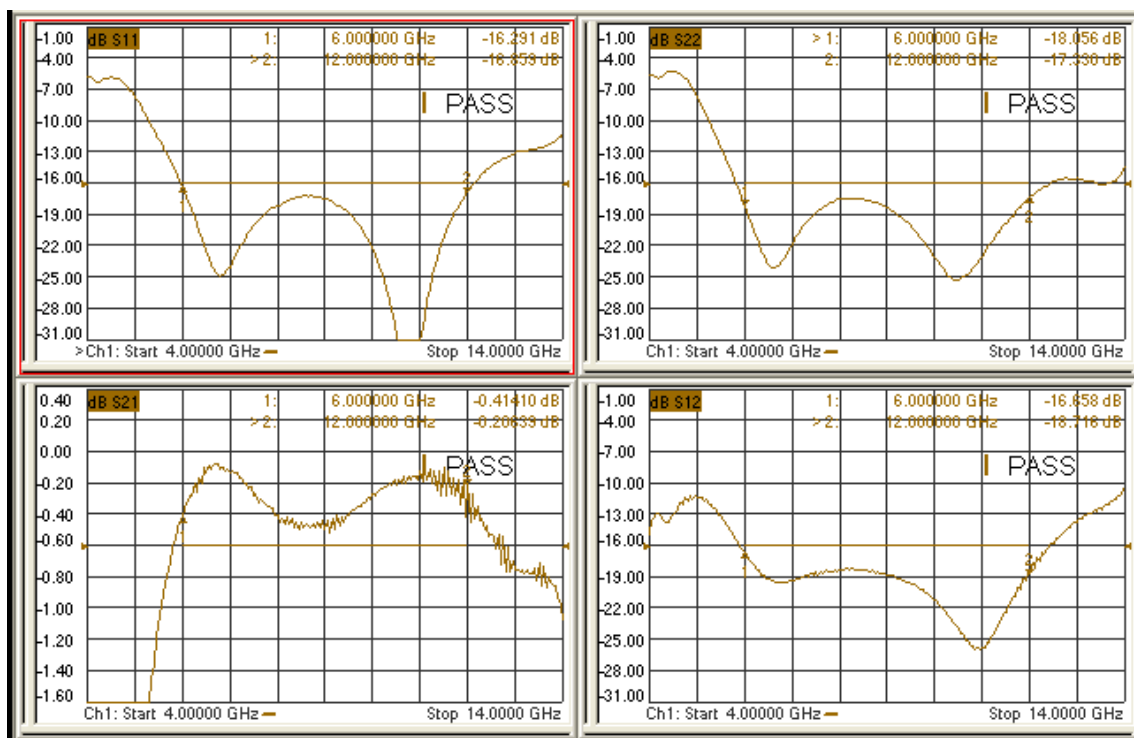

Outline

Coaxial Isolator, 6-12 GHz

JIC6000T12K0S1D

Test Data

Features

- Broadband device
- High isolation
- Low insertion loss
- RoHS & REACH Compliant

Applications

- Test & Measurement applications
