

JID0617T0960KM4

The image shows a compact electronic module, identified as a JOL-2000. It features a circular white face with black markings for "1" and "2" and a central arrow pointing towards the "2". The device is housed in a metallic, gold-colored casing with several mounting holes. A small black label on the side indicates "JOL-2000" and "100mA". The entire unit is set against a plain white background within an orange border.

Electrical Specification

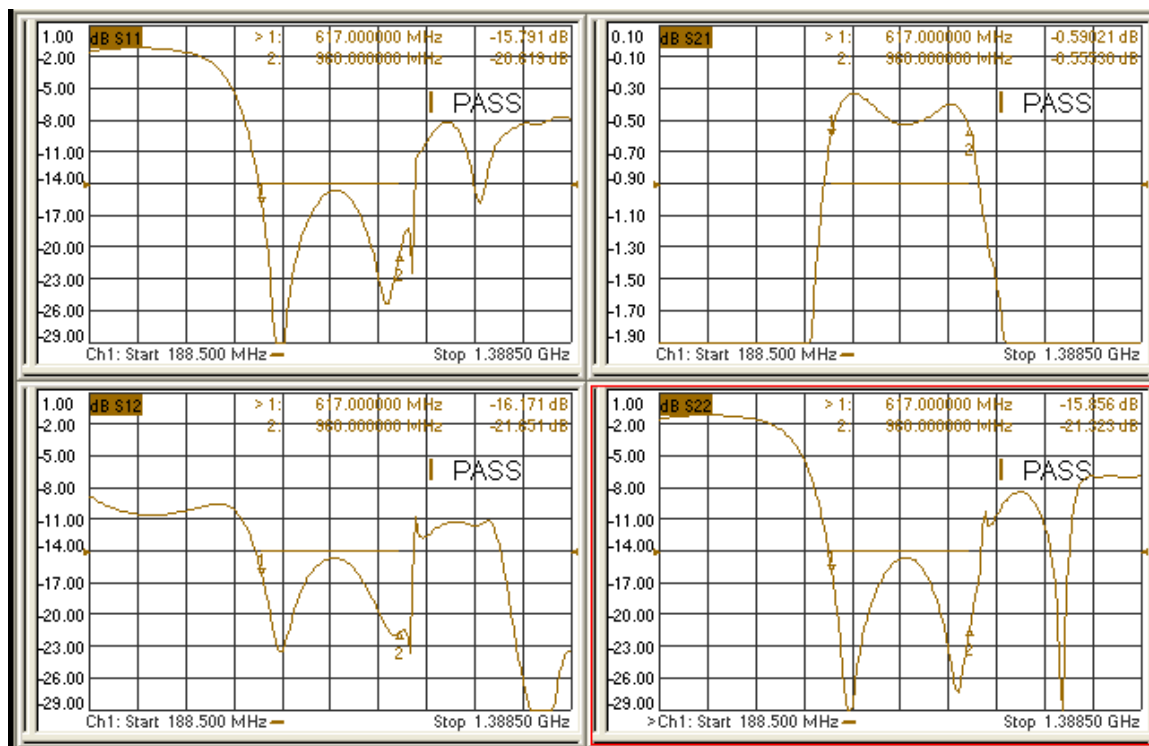

Part Number	JID0617T0960KM4
Frequency (GHz)	0.617~0.960
Insertion Loss(dB)	0.9
Isolation(dB)MIN	14.0
Return Loss(dB)	14.0
Operating Temperature	-20°C~+85°C
Power FWD/REV/PK(Watt)	40/40/-
Tab(W×LG×THK)(mm[Inch])	1.30[0.051]x3[0.118]x0.2[0.008]

[illegible]
