

S Band Coaxial Isolator

JIC3400T4200NF2

Description:

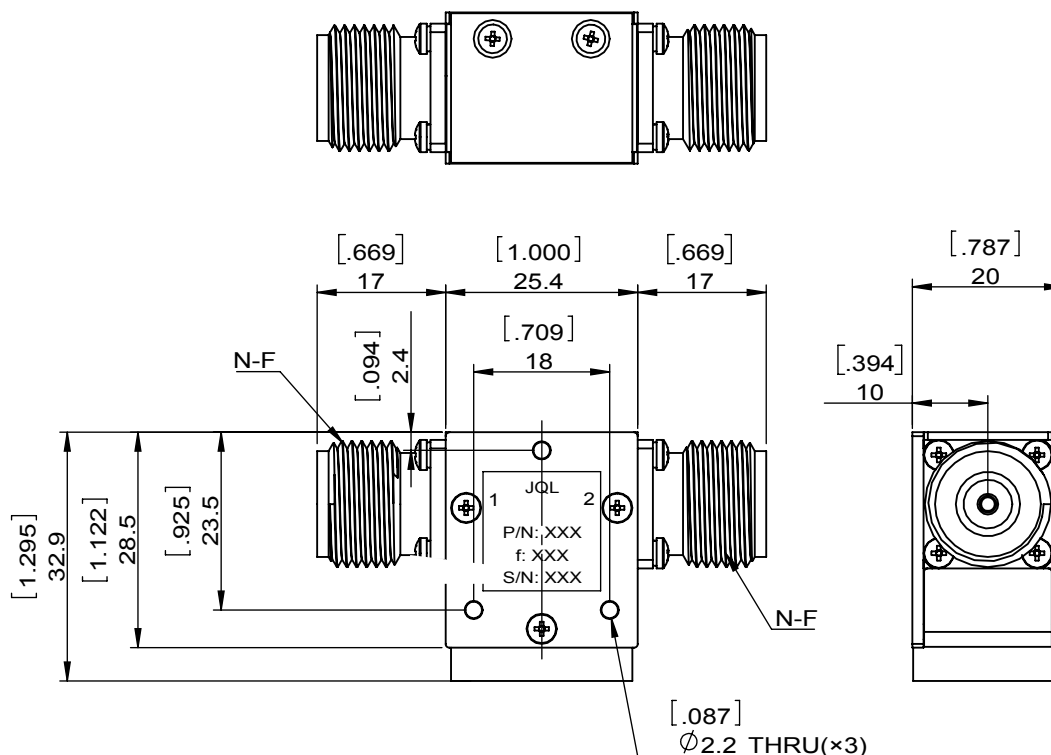

JIC3400T4200NF2 is a coaxial Isolator in the frequency 3.400~4.200GHz. The device is extremely stable over the temperature range of -20°C to +85°C, with maximum insertion loss of 0.45(TYP:0.35)dB and minimum return loss of 20.0(TYP:23.0)dB. It can handle a Power FWD/REV/PK(Watt) of 50/20/500

Electrical Specification

Part Number	JIC3400T4200NF2
Frequency (GHz)	3.400~4.200
Insertion Loss(dB)MAX	0.45(TYP:0.35)
Isolation(dB)MIN	20.0(TYP:23.0)
Return Loss(dB)MIN	20.0(TYP:23.0)
Operating Temperature	-20°C~85°C
Power FWD/REV/PK(Watt)	50/20/500
